

## YV04 Lasermarkierer – 7 W

Der Lasermarkierer ML-7112AH ist ein Plug-and-Play-System mit einem kompakten Design, das Metalle, Kunststoffe und Verbundwerkstoffe markieren kann.

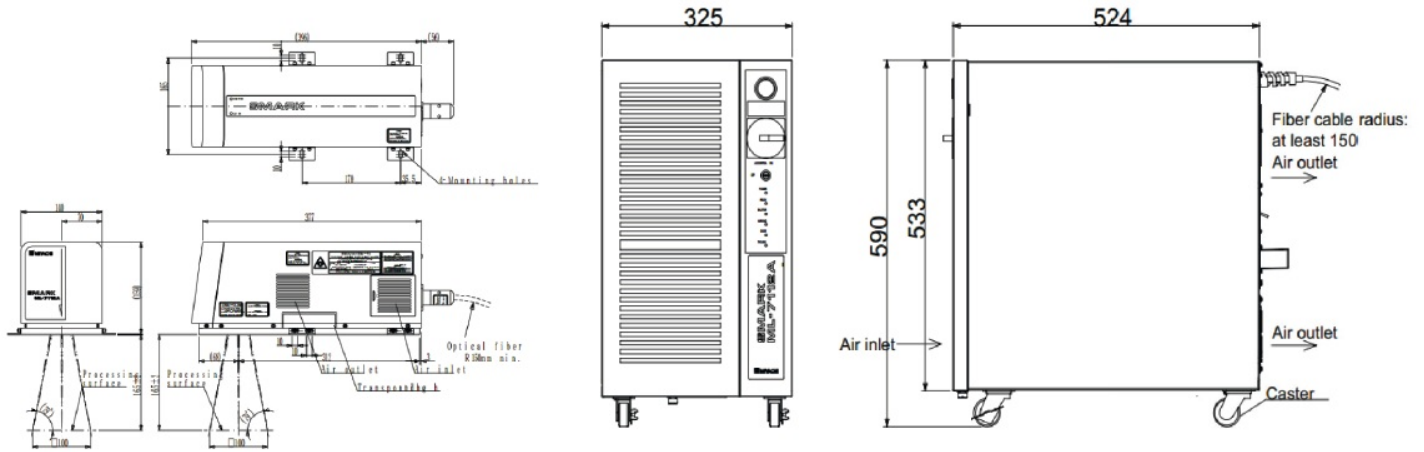

### Spezifikationen YV04 Lasermarkierer – 7 W

- > Wellenlänge von 1064 nm
- > Q-SW-Frequenz bis 200 kHz
- > Markierung von Zeichen, Grafiken, Seriendaten und wichtigen Daten
- > Markierung von Datenmatrixcodes und QR-Codes
- > Linse: f160
- > Expander: x5

Specifications YV04 Lasermarkierer – 7 W

|                             |                                                    |
|-----------------------------|----------------------------------------------------|
| Max. Nennleistung           | 7W                                                 |
| Leistungsanforderungen      | Single-phase, 100 V - 240 VAC (+6%/-10%), 50/60 Hz |
| Leistungsschalter-Nennstrom | 10A                                                |
| Cooler                      | Air cooling                                        |
| Umgebung                    | 5 to 35°C with humidity 40 - 85%                   |
| Gewicht                     | 40 kg                                              |
| Sicherheitsklasse           | Class 4 laser, pilot laser: Class 1                |
| Gesetzliche Genehmigung     | CE compliant                                       |
| Lens                        | f160                                               |
| Bereich                     | ∅ 100 mm                                           |
| W.D.                        | 175 mm                                             |
