

## PA-HD200A Micro TIG Welding Power Supply

The PA-HD200A is a high performance Micro TIG Welding Power Supply and the perfect solution for welding coils and terminals, bus bars, and enameled wires. It is supplying a maximum of 200amps output power and therefore ideal for welding components in the automotive, medical, battery, and electronics industry.

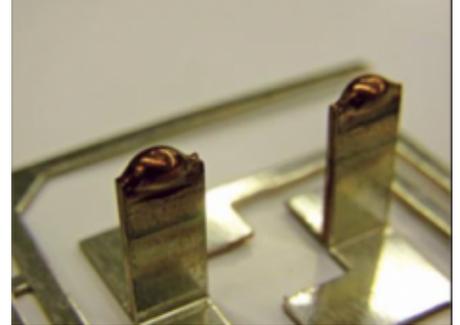

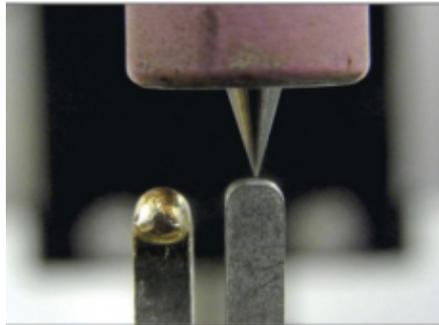

### Key Features PA-HD200A Micro TIG Welding Power Supply

- > Current modulation allows the user to selectively turn the current on and off during the weld
- > Current modulation results in controlled heat input to the part
- > Current modulation eliminates internal porosity and external dimples
- > Current modulation uniformes the size and shape of welds
- > Supplying a maximum of 200 amps output power
- > High performance
- > Dual fans to prevent overheating

Specifications PA-HD200A Micro TIG Welding Power Supply

-	PA-HD200A
Maximum Output Current	200Amps
Ciclo de trabajo	12% @200A
Voltaje de circuito abierto	35V D.C.
Opciones	1 Output
Suministro de red 50 / 60Hz	380/ 415 / 460VAC 3 phase (factory selected)
Up slope Time (0.1ms steps)	0.1-99.9 ms
Tiempo pico de soldadura (pasos de 0,1 ms)	0.1-999.9ms
Down slope Time (0.1ms)	0.1-999.9ms
Tiempo de retardo del 2º pulso de soldadura	1-999ms
Características	Current Modulation/Double pulse
Refrigeración (protegido contra sobrecalentamiento)	Dual fans
Presión máx. de gas	1 Bar - Single Output
Gas Pre/Post Purge Timing	Programmable
Dimensions (D x W x H)	630mmx450mmx250mm
Peso	66Kg

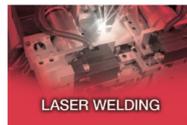

Product applications PA-HD200A Micro TIG Welding Power Supply

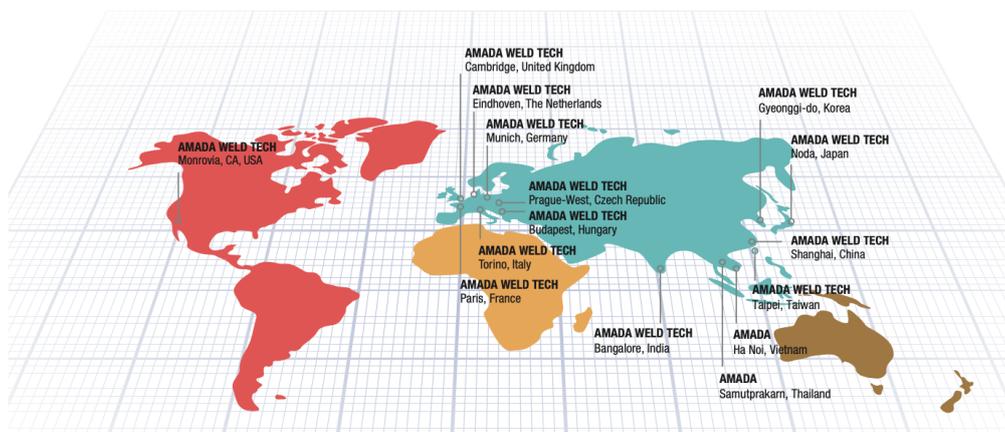

# AMADA®
