

Our Workbenches meet the needs of operators who intend to mount a weld head and a weld control to a table and create a practicable and efficient working environment.

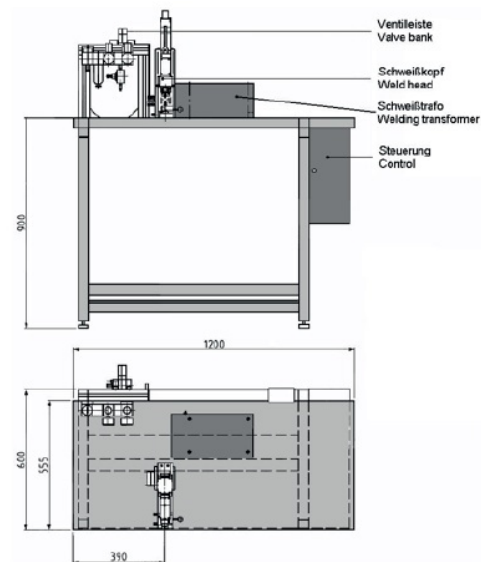

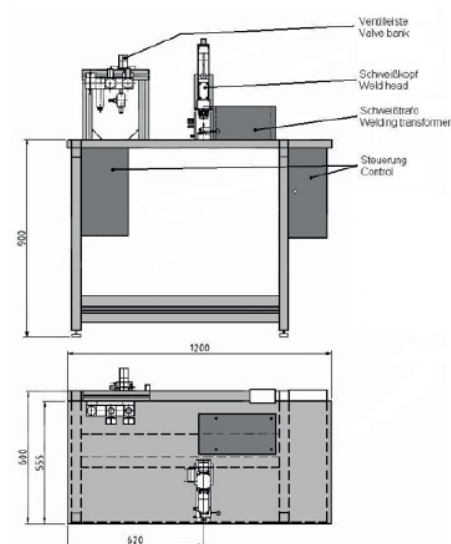

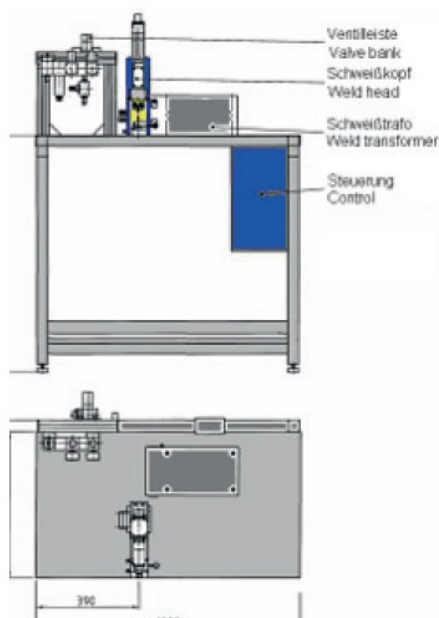

The workbenches are a sturdy, compact and mobile solution to mount products adequately for daily operation. The frame is made of light aluminum while the plates are made of hardened coated wood painted in neutral light grey.

The workbenches allow flexible mounting of components and to store tools or samples on the bottom plate which may also serve as footrest.

Key Features Workbenches

- MIYACHI PECO Workbenches meet the needs of operators who intend to mount a weld head, valve bank and weld control, which have the suitable size and weight, to a table and create a practicable and efficient working environment.
- The workbenches are a sturdy, compact and mobile solution for the appropriate mounting of MIYACHI PECO products for daily operation. The frame is made from light aluminium while the plates are made from hardened coated wood and are painted in a neutral light-grey.
- The workbenches allow MIYACHI PECO components to be mounted on the top and in the middle as well as the storage of tools or samples on the bottom plate which can also serve as footrest.
