

Saw Blade Welding Systems

The Jupiter Saw Blade Welding system from AMADA WELD TECH is a versatile and accurate welding system to weld hard metal parts on band saws. The welding system has a modular setup and enables to weld a wide variety of hard metal tip (Tungsten Carbide) shapes. A vision system inside the machine ensures accurate placement of each individual hard metal tip. Combining our AWS3 welding with a very accurate transport system enables optimum quality.

Specifications Saw Blade Welding Systems

- Modular setup enables a variety of hard metal tip shapes
- NEW vision based system for accurate placement of each individual hard metal tip
- Easy loading and unloading of parts
- AWS Integrated Resistance Welding System with process control and monitoring enables optimum quality control
